COMMUNITY EXTENSION OFFICE

Anaprel Building
LPU Batangas Main Campus
Tel. No. (043) 723 - 0706 local 184
The Community Extension Office follows the philosophy of Dr. Jose P. Laurel who believes in the human dignification of man. His definition of an economic man connotes that to earn self-respect, one must be self-reliant and is able to sustain himself through hard work and perseverance. Along this line of thinking, the Lyceum of the Philippines University - Batangas supports the alleviation of the less fortunate from their present condition not only by providing them a one-shot deal provision of resources but teach them self-respect through self-reliance.

Community Extension program as one of the very vital part of University’s tri-fold function have played an important role in social transformation and became an instrument in changing lives of many Batanguenos by providing sustainable projects making them more productive, self reliant and worthy citizens. The university over the years have been engaged into projects categorized into the institutional, college-based, outreach and linkages with companies offering the services of the faculty and students and the non-academic staff in their lines of expertise.

The Lyceum of the Philippines through the Community Extension Office envisions to be an effective instrument of Social Transformation in the Community

It seeks to develop among its students, faculty and staff a social conscience through awareness, concern and involvement in community development. It shall maintain harmonious relations with the wider community and enhance among the members of the academic and non-academic community deep concern for the needs of others and a strong desire to commit themselves to community upliftment.

The community extension program of Lyceum of the Philippines University hopes to achieve the following objectives:

- Enhance among the various sectors of the non-academic community deep concern for the needs of others and a strong desire to commit themselves to uplift the quality of life of the community;
- Maintain harmonious relations with the wider community and establish cooperative endeavors with government and non-government groups and individuals;
- Helps harness community resource and share school resources to identify the needs and engage the community towards self reliance.
